

STA-DRI® Disposable Products

Sloan Medical keeps you covered—and keeps you safe—with a complete range of disposable fluid-protection products. Our product lines are guaranteed to perform in all types of environments, and offer easy clean-up and total protection. You can count on Sloan for full satisfaction on every product we offer.

The STA-DRI® line of medical garments is available exclusively through Sloan. Developed by urologist Dr. Stewart Sloan, these products feature complete fluid protection for a wide range of uses.

Garments - Featuring Jumpsuits, Pant Protectors, Aprons and More!

- Sta-Dri® products are completely impermeable, so you'll stay protected from any fluid penetration. Nonsterile.
- Impervious film and heat-sealed seams prevent leaking and keep you safe from blood-borne pathogens.
- Comfortable, 2 mil polyethylene is easily worn under a sterile gown.
- Open-back design on jumpsuit and pant protector promotes air circulation and reduces perspiration.
- Choose the product that suits your situation - non-skid or regular.
- One-size-fits-most sizing reduces your inventory.
- Latex-Free
